

Personal details

- Name**
Wen-Hao Wu
- Address**
Holtwiesche 23
Gelsenkirchen, 45894
- Phone number**
+4915112991619
- Email**
vance.wenhaowu@gmail.com
- Date of birth**
08/10/1997
- Driving licence**
B
- Nationality**
Taiwan
- Website**
<https://wenhaowu1997.github.io/>

Languages

- English
- Chinese
- German
- Japanese

Skills

- Computer Vision
- Image Processing
- ML & DL
- Edge AI
- Industrial Engineering
- Automation
- IoT
- Software Development
- Python & C#
- IT Database Management

AI Engineer with an Industrial Engineering background, experienced in Computer Vision, automation, and IT workflows. Skilled in developing AI-based inspection and monitoring systems, deploying deep learning models in production, and building scalable data pipelines. Passionate about combining AI, Automation, and engineering expertise to deliver solutions that improve efficiency, safety, and compliance in industrial and technical environments.

Work Experience

AI Expert Jan 2025 - Mar 2025
Dichtungstechnik Wallstabe & Schneider GmbH & Co. KG, Niederwinkling, Germany

- Developed and deployed **RAG-based chatbot assistants** using OpenAI API to automate internal knowledge retrieval
- Led **end-to-end development** of chatbot assistants, including use case scoping, data curation, prompt design, testing, and iterative improvement.
- Integrated backend services with **RESTful APIs and IT systems** to ensure scalable and reliable access across departments.

AI Expert for Production Systems Oct 2024 - Dec 2024
Dichtungstechnik Wallstabe & Schneider GmbH & Co. KG, Niederwinkling, Germany

- Develop **AI inspection programs for quality control** to reduce scrap rate
- Supported **real-time AI inspection operations** in high-volume **manufacturing environments**
- Drove **automation** in collaboration with **cross-functional** teams

AI Working Student Apr 2023 - Sep 2024
Dichtungstechnik Wallstabe & Schneider GmbH & Co. KG, Niederwinkling, Germany

- Built and deployed **CNN-based defect detection models** using transfer learning and optimized for **edge deployment** with **ONNX**
- Developed **data pipelines** for image annotation, augmentation, and preprocessing
- Applied **MLOps practices** with **DVC** and **MLflow** to ensure reproducible experiments and maintainable model development workflows.

Education

Master of Engineering Mar 2022 - Sep 2024
Technische Hochschule Deggendorf, Campus Cham, Cham

Degree Program: **Artificial Intelligence for Smart Sensors and Actuators**

- Master's Thesis: *"Automated Visual Inspection of Sealing Products: Implementation and Evaluation of an AI-Based System"*

Bachelor of Engineering Sep 2016 - Jan 2021
Technische Hochschule Deggendorf, European Campus, Pfarrkirchen

Degree Program: **Industrial Engineering / Maintenance & Operation**

- Bachelor's Thesis: *"Optimizing a Redox Flow Battery: A study on the electrolyte constituents"*
